**POSITIVE ABOUT  
BRIXINGTON**

## **WHY AM I STANDING FOR ELECTION?**

I grew up on Fraser Road in Brixington and have lived in the area for most of my life. I am standing for election because I want to make sure our town can reach its full potential.

There are lots of great things happening - Exmouth has attracted investment from small and large businesses; more events than ever are taking place in the town centre; sports, arts and leisure are thriving; community groups of all shapes and sizes are doing fantastic work - I truly believe the town has a very bright future.

However, we still face real ongoing challenges in areas such as affordable housing, attracting more quality jobs for people of all ages, and ensuring our older residents are well looked after. We also need to make sure that regeneration projects are high quality and really help the town become the best it can be. I have always campaigned strongly on these issues and will tackle them in a positive way.

## **WHY IS THERE A BY-ELECTION IN BRIXINGTON?**

The very sad death of Cllr David Chapman in June, a close friend and someone who worked hard for the community, has meant that this election has been called. I was first elected with David in 2007 to represent Brixington and he is very much missed.
